Greetings!

We would like to welcome you to the 43rd annual Hebbert Charolais bull sale. None of this would be possible without our customers, returning or new, who are interested in our bulls. We are fortunate to be in an industry that connects us with cattle producers from all across the country and we cherish each one of those connections.

Generations before us have laid down a foundation of good functional cattle. This year as with any year we stand behind our bulls. They have been slowly developed with the buyer in mind. It is our goal to produce a bull that is hard muscled, good footed, and ready to go to work.

We are pretty excited about this offering of bulls and encourage you to come take a look! We look forward to visiting with you and thank you for your interest in our bulls.

Continuing the Legacy,
Matt & Lacy

Ben Wright

FAMILY RANCHING SINCE 1886

James Wright, a native of Grant County, Wisconsin, came to Nebraska in 1872 with his parents. They arrived with three teams of oxen and forty head of cattle. In Hamilton County, Nebraska, James bought a homestead right and timber claim of 80 acres. In 1886, he headed west to the Sandhills of Nebraska and settled in Grant County, purchasing land in 1887.

James was the father of four boys. His son, Ben Wright, took over a portion of the ranch and continued in the cattle business, buying additional neighboring homesteads. Opal, one of Ben's three daughters, inherited a share of the land. She and husband, Merle Rex, formed a ranching operation, with their daughter, Merla, and her husband, Mose Hebbert.

What began as a Hereford based commercial cow-calf ranch transitioned into a purebred operation with the purchase of registered Charolais cows. The last of the commercial cows were dispersed in 1982 and the Hebbert Charolais partnership was formed between Mose and Merla, their son, Dave, and his wife, Mickie. Dave and Mickie's oldest son, Matt and wife, Lacy, are now managing partners in Hebbert Charolais. Their sons, Dillon and Waylon, represent the seventh generation to live and work on the family owned ranch.

BULL DEVELOPMENT

Bull development is a key component to a successful breeding season. Hebbert Charolais bulls are developed with the producer in mind. It is our goal to develop bulls that are hard muscled and ready to go to work.

With the use of Ranger Limiter feed through self feeders and free choice hay, we have targeted an average daily gain of three pounds per day for all bulls. This will enable the bull to develop in a way that limits fat and produces hard muscle. Performance testing begins in November and continues until sale day.

Average Daily Gains will be available as a supplemental sheet prior to sale day!

OUR COWS

Functional cows are the backbone of our program. We cull our cows rigorously, keeping only the best. Every cow in the herd has been bred on the Hebbert Ranch. This has enabled us to stack generations of pedigrees high in maternal traits and qualities consistent with problem free cows – particularly udder structure, fertility, calving ease, disposition, total performance and structural soundness.

The American International Charolais Association's Dam of Distinction program recognizes dams that have consistently weaned calves with above average weaning weights and calving intervals of 380 days or less. Hebbert Charolais has consistently been a top breeder nationally in the number of dams achieving AICA Dam of Distinction status.

The AICA has recognized Hebbert Charolais
for the Area 4 Top Registration Award: 2011-2013, 2016-2021, 2023
